

HAMBURG - IMMINGHAM

Reliable and well established multimodal service pre and post Brexit

Are you looking for a flexible and stable transport solution from Germany into the UK? Our shortsea fitted service from **Hamburg to Immingham** is designed to meet highly demanding supply chain requirements and cannot only carry 45" containers but also **special tank sizes**.

With Brexit looming in the horisont, many uncertainties over the future trading relationship remain but with our Hamburg-Immingham service, **we are able to accommodate current and future challenges** as well as other post Brexit impacts:

- Weekly departures, scalable capacity and short lead-times
- Environmentally sound transport due to MGO usage only
- Easy and smooth customs clearance, handled by local agents (import/export)
- Vessels can carry 45" containers and special tank containers (SWAP) and 30" SWB
- Safe and secure transport in sealed containers
- Track and Trace cargo at www.myunifeeder.com
